

### **Preliminary Schedule**

Most unfortunately, our planned visit to Petronas fell through. Instead of visiting this petrochemical company, we will take a bus to Malacca (Malay: Melaka), a small state in southern Malaysia to do some sightseeing. We're currently investigating the possibility of going to the beach at Port Dickson, during the third meeting we'll let you know if you need to pack any swimming gear!

For the city tour through Singapore we've managed to arrange a specially customised private tour. We'll walk along the old streets next to the river, visit the old Chinese Thien Hock Kheng temple and visit the Asian Civilisations Museum.

Our contact at AkzoNobel has kindly offered us to extend the already planned visit to their surfactants group with a tour of their Quat plant.

<b>Date</b>	<b>Activity</b>
